

Brett Britton

Vice President, Safety Manager, Purchasing, Estimating: 1998 – 2005

Superintendent, Britton Construction: 1993 – 1998

Foreman, Britton Construction: 1988 - 1993

Ironworker/Welder, Britton Construction: 1983 – 1988

RELATED EXPERIENCE

Responsibilities:

Brett oversees all work performed by Britton Construction

Brett coordinates the team building for Britton Construction's design build projects, bringing together owner, architect engineers, and subcontractors. Brett oversees job costing throughout the design phase.

Brett is responsible for purchasing in addition to safety management, estimating, and project management. Since many Britton projects require existing facilities to be kept in operation during construction, Brett supervises the close coordination with the owners and users as required. As an owner and officer of the company, Brett maintains a close relationship with each project in process, thus assuring a stream of current information from the common laborer to the upper echelons of the company.

Representative Projects:

Farm Credit of New Mexico (design build)
\$7,200,000.00
